

Agroprosperis Group

Bringing Ukrainian Crops to Global Markets

Agroprosperis Group

- Established in 2006, AP Group is a group of Ukrainian agribusiness companies owned and managed by three NCH Capital funds
- AP Group operates across the agribusiness value chain – procurement, farming, insurance, logistics, trading, export, and lending

Business Unit Crop Production

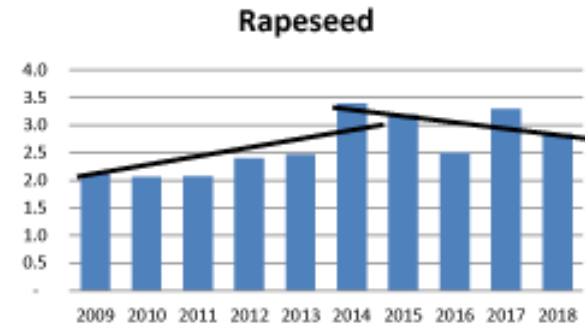

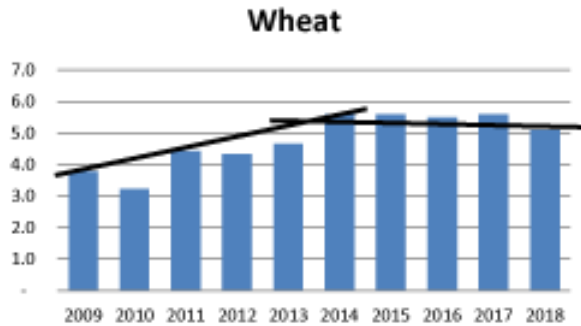

- Annual production of **1.5** million tons
- Main crops: wheat, corn, soya, sunseed, rapeseed
- **350,000** ha land farmed

Business Unit Supply Chain

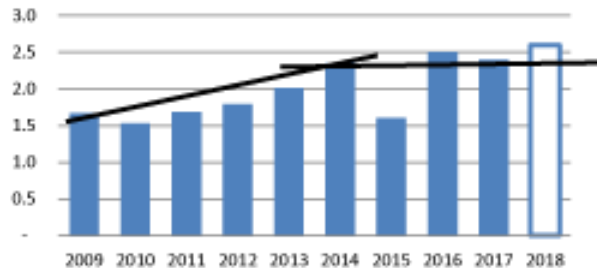

- Distribution (**\$25** million of seeds and chemicals)
- Lending (**\$12** million working capital loans to external farmers)
- Crop origination (**1.5** million tons)
- Logistics (grain storage, railcars, barges)

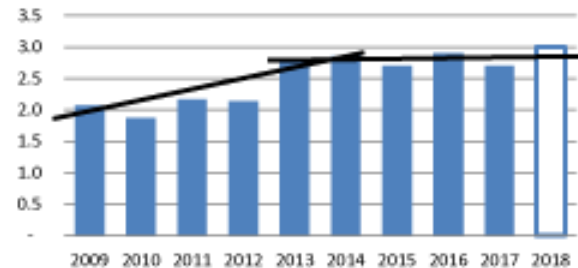

For 10+ years in a row, we consistently increase our crop yields

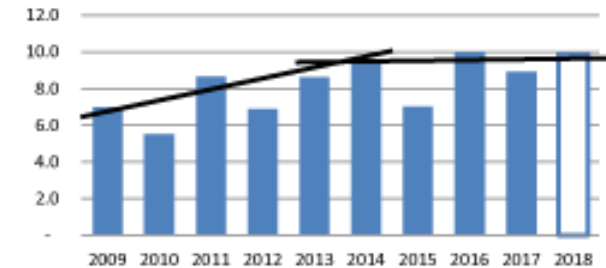

Soya

Sunflower

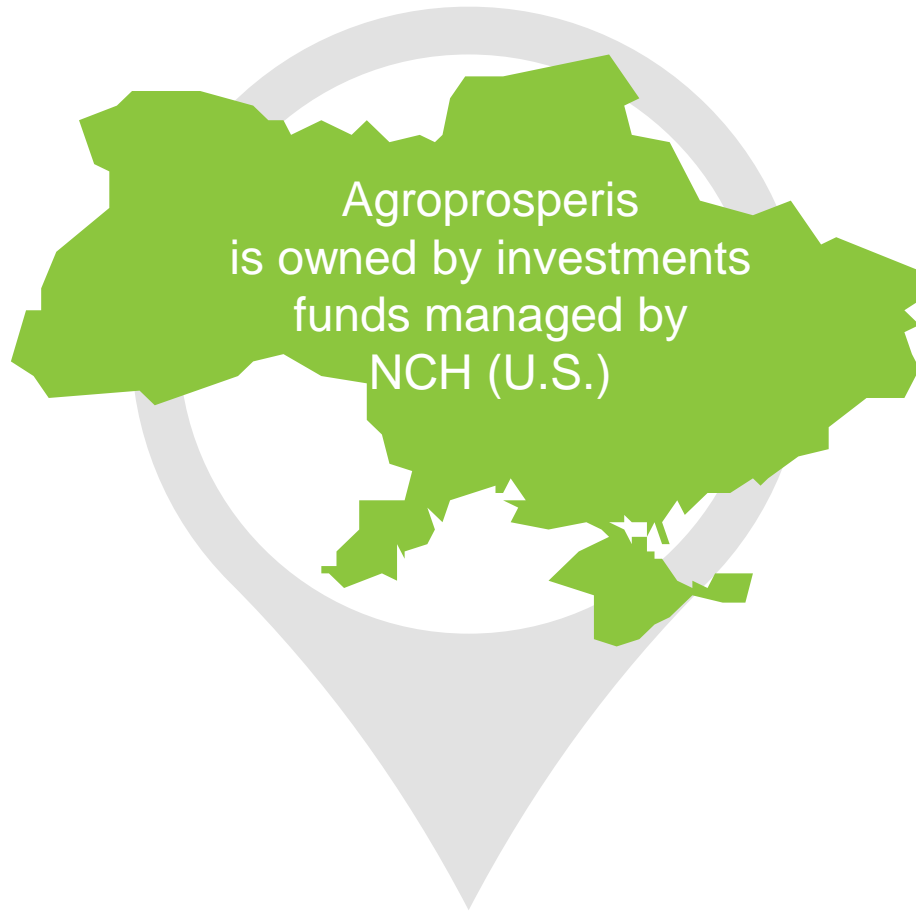

Corn

- Since 2009, our crop yields have increased by 5.1% p.a.
- Our farming technology has not changed much. The main reason for the yield increase is that our teams are more motivated, incentivized and capable to apply technology

We are the largest crop producer & exporter with direct foreign investments in the Black Sea region

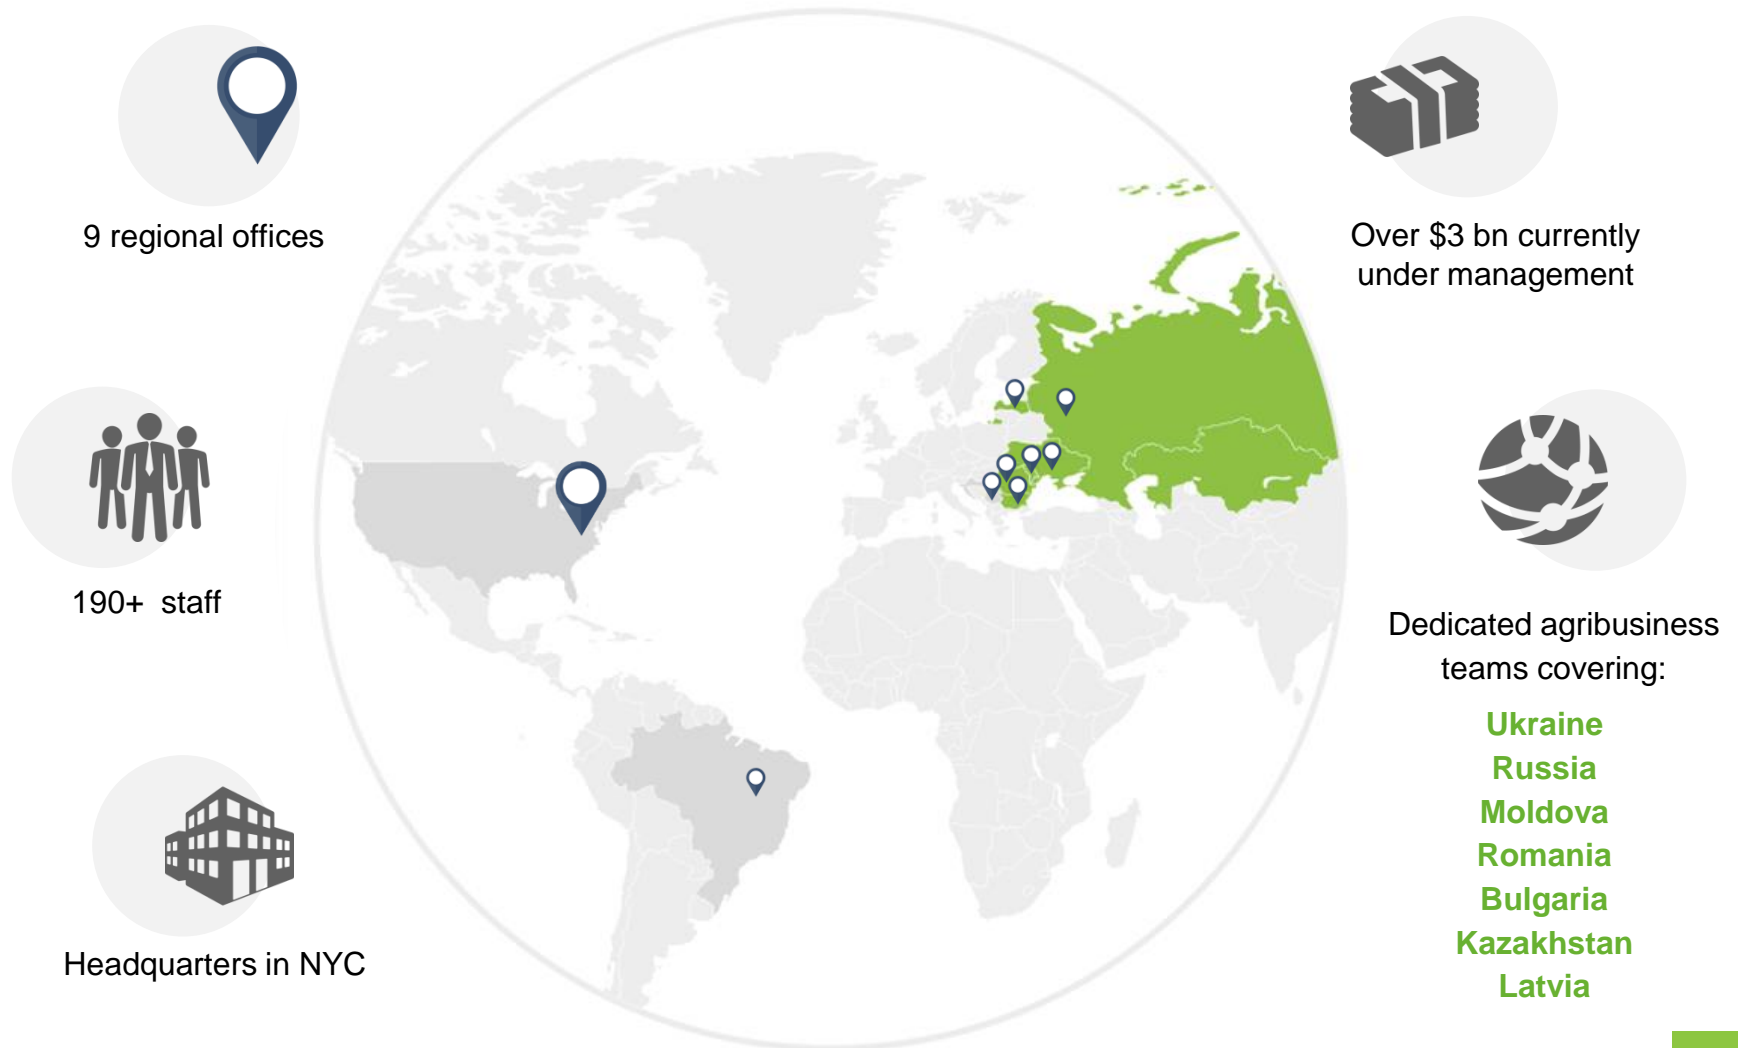

Agroprosperis was formed in
Ukraine in 2007

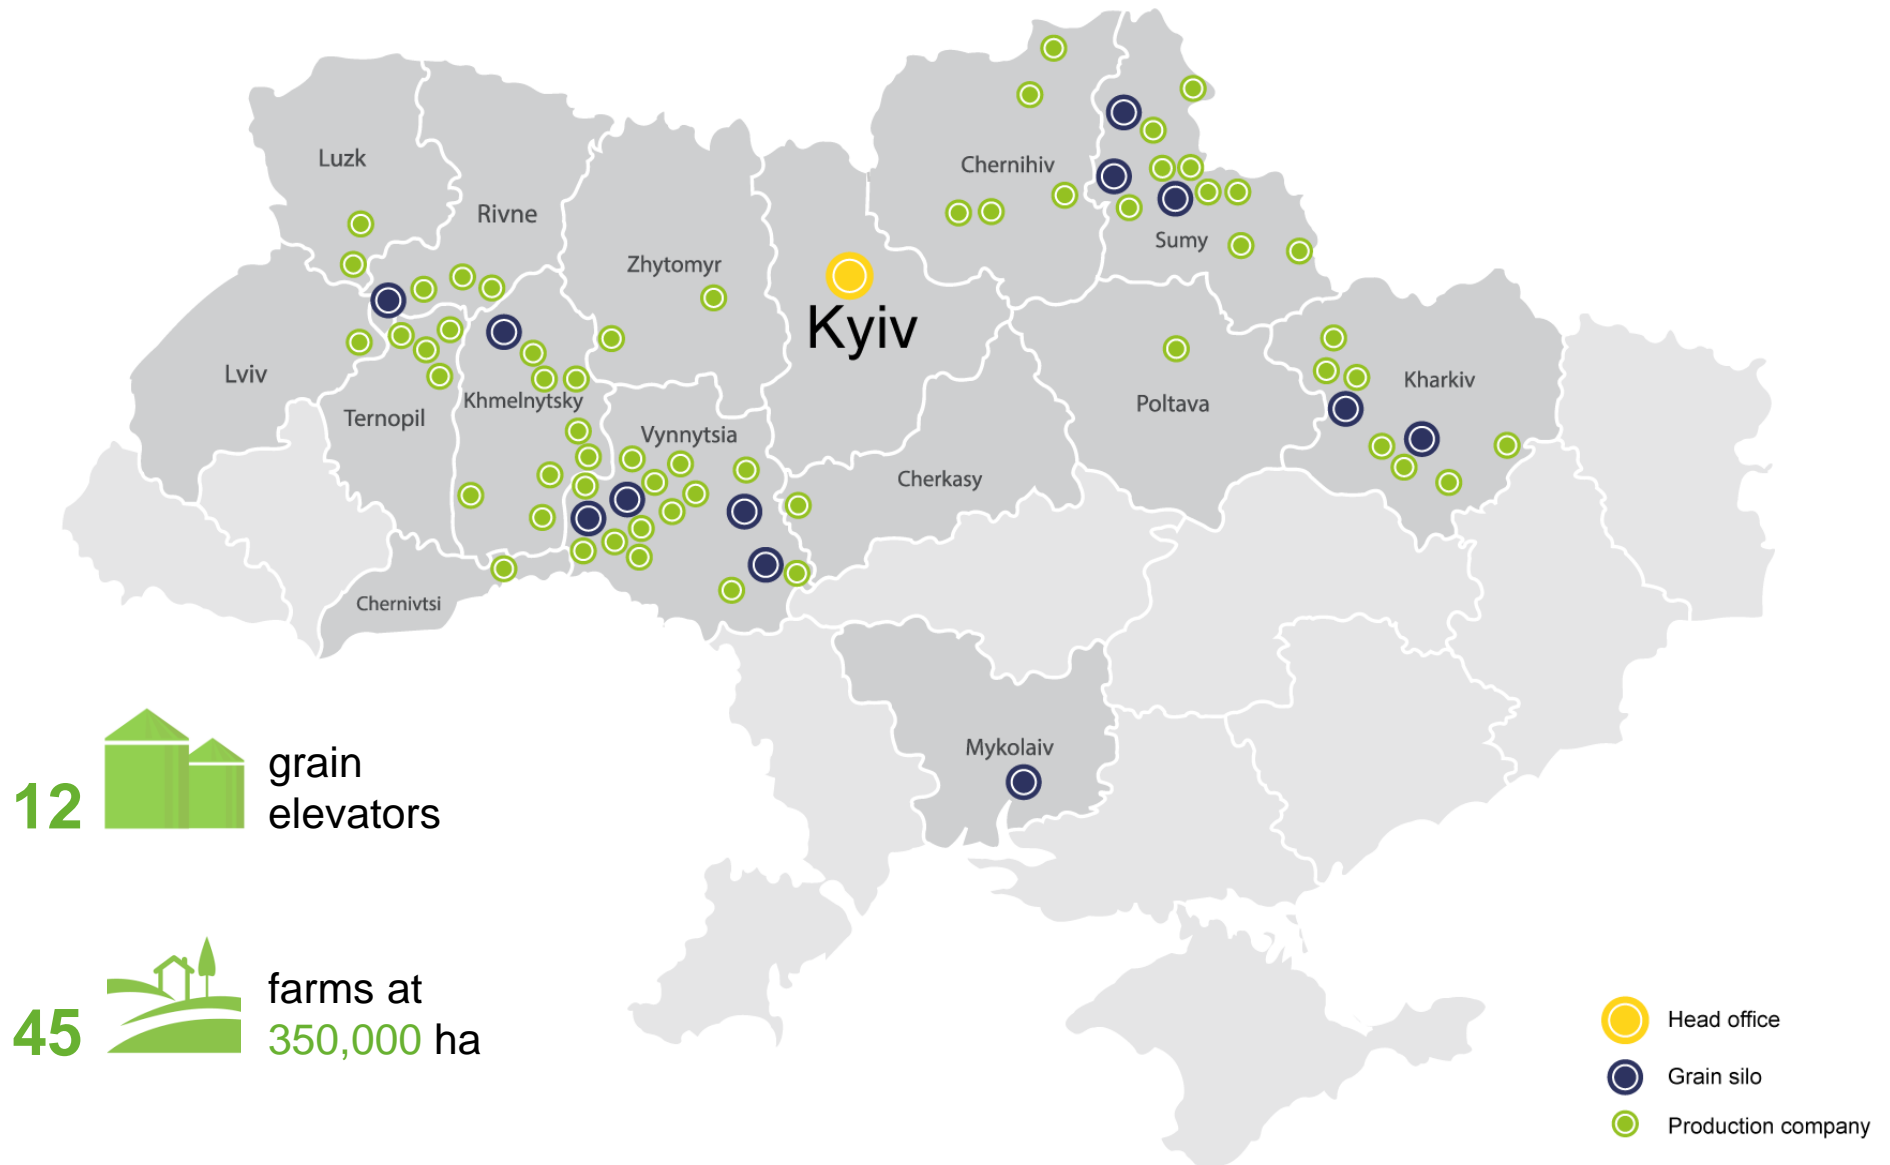

NCH Capital

NCH Capital has successfully managed investments in Eastern Europe and the CIS for over 20 years

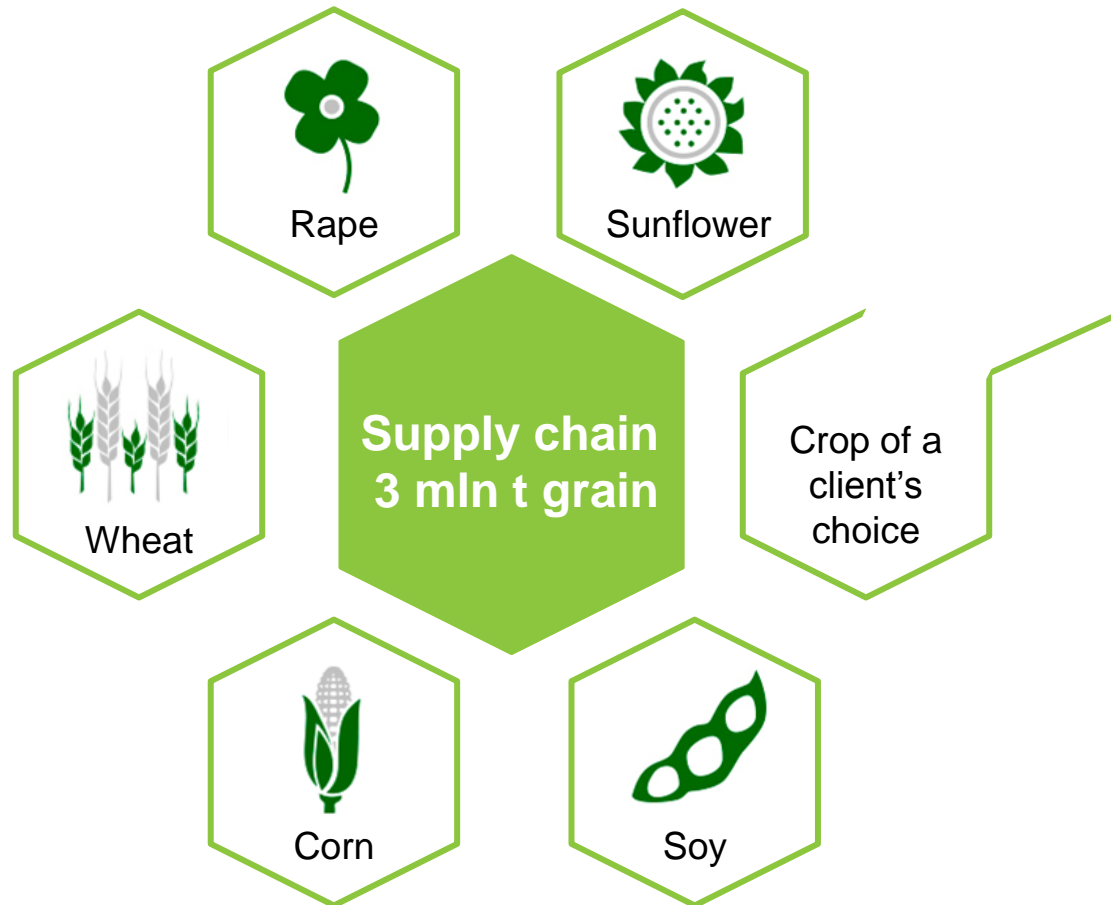

Current AP Group assets

Our key crops

We professionally grow 5 key crops.

Our large scale production base allows to adjust our plans to produce the crops our clients need, in amount and quality specified

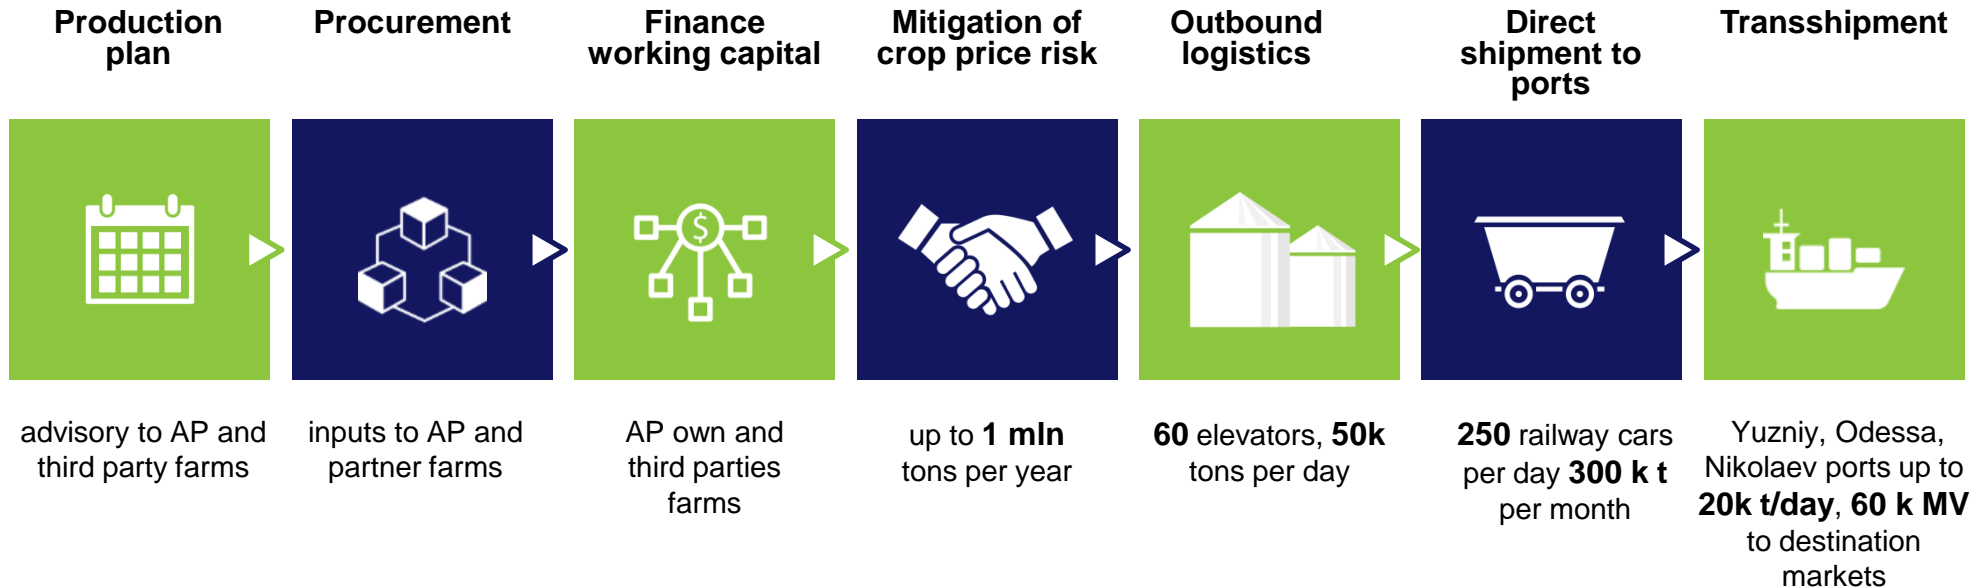

Our export regions

Agroprosperis. How we work

We successfully produce and ship crops to the market by controlling our inbound and outbound supply chains

We are the official distributor of world's top seed and chemical brands in Ukraine
