

The Ukrainian company CAT BOX

**is a manufacturer of innovative eco-toilets for
cats**

about us

The company is a joint stock company with the right to conduct foreign economic activity. The company has all necessary certificates for the components of its own products and has obtained the patent for eco-toilet technology for cats namely its product, Cat Box. In its plans for the development of its business activities the company intends to enter the, Cat Box product into the pet hygiene markets in Europe and the USA.

about the product

The eco-friendly toilet Cat Box is a modern, eco-friendly, ready-to-use, disposable toilet for cats.

It is a hygienic product that, using a combination of two fillers, completely blocks the smell of ammonia in the room. It is a box of cardboard, which contains a plastic tray.

The bottom of the box is covered with a layer of 3-4 cm of granules of coniferous wood which are moisture absorbent. The tray contains a layer of 3-4 cm of a natural mineral. This mineral has the unique property of blocking and not spreading an unpleasant odor during the entire use of the toilet.

This technology makes it possible to use the Cat Box eco-toilet without using a filler replacement for up to 25 days.

qualities/advantages

- environmentally-friendly components, cardboard box, wood pellets, natural mineral;
- completely odorless;
- does not contain any chemical additives;
- filler is always dry due to the natural properties of the stone;
- long term use;
- thoroughly clean around the box;
- easily portable for vacation
